PROFILE

Dedicated Associate Machine Learning Engineer with 1+ years of experience, specializing in AI and Data Science. Proficient in Python, Cloud technologies(AWS and Azure) Docker, Big Data, Machine Learning, LLM, and AI technologies. Proven ability to quickly adapt and learn cutting-edge technologies. Committed to driving innovative solutions through advanced technical expertise and a passion for emerging technologies.

PROFESSIONAL EXPERIENCE

Associate ML Enginner

Prescience DS

2024 – present
Bangalore, India

Data Transformation Product | Backend Developer

- Developed a comprehensive data transformation engine using Python, Pandas, and PySpark
- Implemented advanced data quality solutions, **resolving 99.99% of data quality issues**
- Leveraged cloud technologies including **AWS** (Lambda, Glue, EC2, S3) and Azure (Blob Storage, VM)

Big Data Production Pipeline Engineering | Data Engineer

- Engineered advanced big data production pipeline using **PySpark** and **Python**
- Significantly optimized data processing performance:
 - Reduced data processing speed by **35%** for large-scale data workloads
 - Decreased operational costs by **50%** through strategic optimization of Data Processing Units (**DPU**s)

Data Science Intern

Prescience DS

2023 – 2024
Bangalore, India

Data Quality Product | Backend Developer

- Developed a robust data quality solution using **Python** and **Flask API**, deployed on **AWS** (Lambda, Glue, EC2, S3) and **Azure** (Blob Storage, VM)
- *Optimized* codebase, *improving* performance and accuracy by **30%**

ML End-to-End Solution Product | DevOps and Backend Developer

- Developed an efficient data pipeline using open-source and free **Airflow**, reducing recurring costs
- Optimized codebase, increasing processing speed by **25%**
- Utilized cloud object storage solutions including **AWS S3** and **Azure Blob Storage**
- Created **scalable Flask API** for product integration

Natural Language to SQL Chatbot | LLM Developer

- Led the development of an innovative NL to SQL chatbot project
- Implemented multiple open-source LLM models including **LLAMA 3.1**, **Google Flan T5**, and **Starcoder**
- Developed a user-friendly interface using **Streamlit** and **Flask API**
- **Containerized** the application using **Docker**
- Created a solution enabling non-SQL professionals to interact with and draw insights from complex databases

EDUCATION

B.Tech Computer Science Engineering

Lovely Professional University

2020 – 2024
Phagwada, India

ACOLADES

Bertelsmann Next Generation Tech Booster Scholarship

2024 – 2025

Amazon ML Summer School

2022

Select among top 200 students all over India from various Universities
